Turning on the A/V System
- Locate the Control Panel on the Wall
- Select the input you want to use to power on the system

Projecting from your Laptop
- Press the button labeled LAPTOP PC
- Plug the video connector into your laptop’s external monitor port and plug the audio connector into the headphone port
- If necessary, change the video settings on your laptop

Projecting from the DVD Player
- Press the button labeled DVD
- Use the bottom row of buttons on the control panel to control your DVD

Projecting from the VCR
- Press the button labeled VCR
- Use the bottom row of buttons on the control panel to control your VHS

Shutting Down the Control System
- Press the button labeled POWER OFF

Please remember to POWER OFF at the end of your lecture!
