

# Wall-Mounted TV Screens

FOR IMMEDIATE TECHNOLOGY SUPPORT, CALL 617-627-3376 OR EXT 7-3376  
FOR NON-URGENT ISSUES EMAIL IT@TUFTS.EDU

## Getting started

### Arranging the room

- Locate the remote control on one of the tables nearby
- Determine which interface you plan to display onto the television screen

### Turning on the television

- Press the blue **Power** button in the upper left corner of the remote control
- Choose your appropriate input source from the remote control

To present from...	Select:
Your own laptop	VGA
Your VCR	Video
Your DVD player	Video

## Presenting from the Television

### Using your laptop computer

- Locate the white video input panel in the room
- Connect the **VGA** cable to your laptop's external monitor port. You may need to supply a video adapter. Connect the audio portion of the cable into your laptop's headphone port if you wish to broadcast audio through the TV
- Start up and use your laptop as you would normally
- Choose **VGA** as the television's source
- If necessary, use the appropriate function key to display your image to the television as an external source

### Playing a video using the VCR

- Connect composite cables into the lower video input area of the white panel. Match up the cable colors to the appropriate inputs. Connect the other end of the cables into the output jacks of your VCR player. Plug your VCR's power cord into an available wall outlet
- Use your VCR's remote control to play your video or the buttons on the unit itself
- Choose **VIDEO** as your source using the remote control

- The screen should say Video in the upper right corner and your movie should display on the television screen

### Playing a DVD

- Connect composite cables into the lower video input area of the white panel. Match up the cable colors to the appropriate inputs. Connect the other end of the cables into the output jacks of your DVD player. Plug your DVD's power cord into an available wall outlet
- Use your DVD's remote control to play your video or the buttons on the unit itself
- Choose **VIDEO** as your source using the remote control
- The screen should say Video in the upper right corner and your movie should display on the television screen

## When your class is finished

### Shutting off the television

- Using the remote control, push the blue **Power** button in the upper left corner

### Shutting off your laptop

- Shut down your laptop
- Disconnect the video cable from your laptop and return it to the table

### Shutting off your VCR or DVD player

- Press **Stop** on your remote or on the player to stop your video
- Eject your videotape or DVD
- Disconnect the power cord and composite cables from the wall

### Final steps

- Be sure to return all seated cables to their original locations
- Make sure the television display is off
- Do **not** unplug any power cords except for any that you plugged in yourself

Please remember to **POWER OFF** at the end of your lecture!
