

# ZOOM SECURITY @ TUFTS

Keeping your online meetings secure

## UPDATE YOUR APP

Keep the Zoom app on your computer up-to-date. The latest version has the latest security features. [Learn how to update your app.](#)

## SHARE LINKS CAUTIOUSLY

Protect meetings by sharing links privately, registering participants, and enabling security features for widely-publicized meetings. [Learn more about link sharing.](#)

## ENABLE THE WAITING ROOM

For smaller meetings enable a waiting room so the host can screen and admit each participant. [Learn more about Zoom waiting rooms.](#)

## UNDERSTAND SECURITY CONTROLS

Know how to easily change security settings during a meeting, including: stopping content-sharing, screen annotation, and audio. [Learn more.](#)

## DESIGNATE CO-HOSTS

Designate a host and co-hosts for the Zoom meeting. Ensure that all hosts understand roles and responsibilities. [Learn about hosting and co-hosting.](#)

## REVIEW YOUR SETTINGS

Log into to [tufts.zoom.us](https://tufts.zoom.us) and manage settings for participant behavior, including screen sharing, annotation, audio, and profile names. [Learn more.](#)

## ACCESS RESOURCES

Tufts provides resources and staff to support you in running a safe online meeting, webinar or event. [For more information visit "Help with Zoom".](#)

## GET TRAINING

Get training and do a trial run. Learn which features to use, and how to handle adverse events. Sign up with [Tufts Learning Center](#), for training, & contact [edtech@tufts.edu](mailto:edtech@tufts.edu) for a security consult.

## EJECT DISRUPTIVE PARTICIPANTS

Know how to identify and eject participants from a meeting temporarily or permanently. [Learn about managing participants.](#)
